

Show up,
get it back.

Refundable no-show deposits for free events. Built on Solana.

THE PROBLEM

Free sign-ups are free to ignore.

Our last event

22 of 30

people who signed up actually came. 8 seats stayed empty.

Example at the same rate

A workshop with 60 sign-ups

About 16 people don't show. The club still orders food for 60, and the waitlist gets turned away.

With a €5 Pfand, our 8 no-shows would have put **€40 into the club treasury** instead of leaving empty seats.

Who it's for

Organizers

Student initiatives, meetups and community workshops that run free events and need attendance they can plan with.

Guests

Students who want a fair rule: show up, or cancel in time, and you pay nothing.

First users:

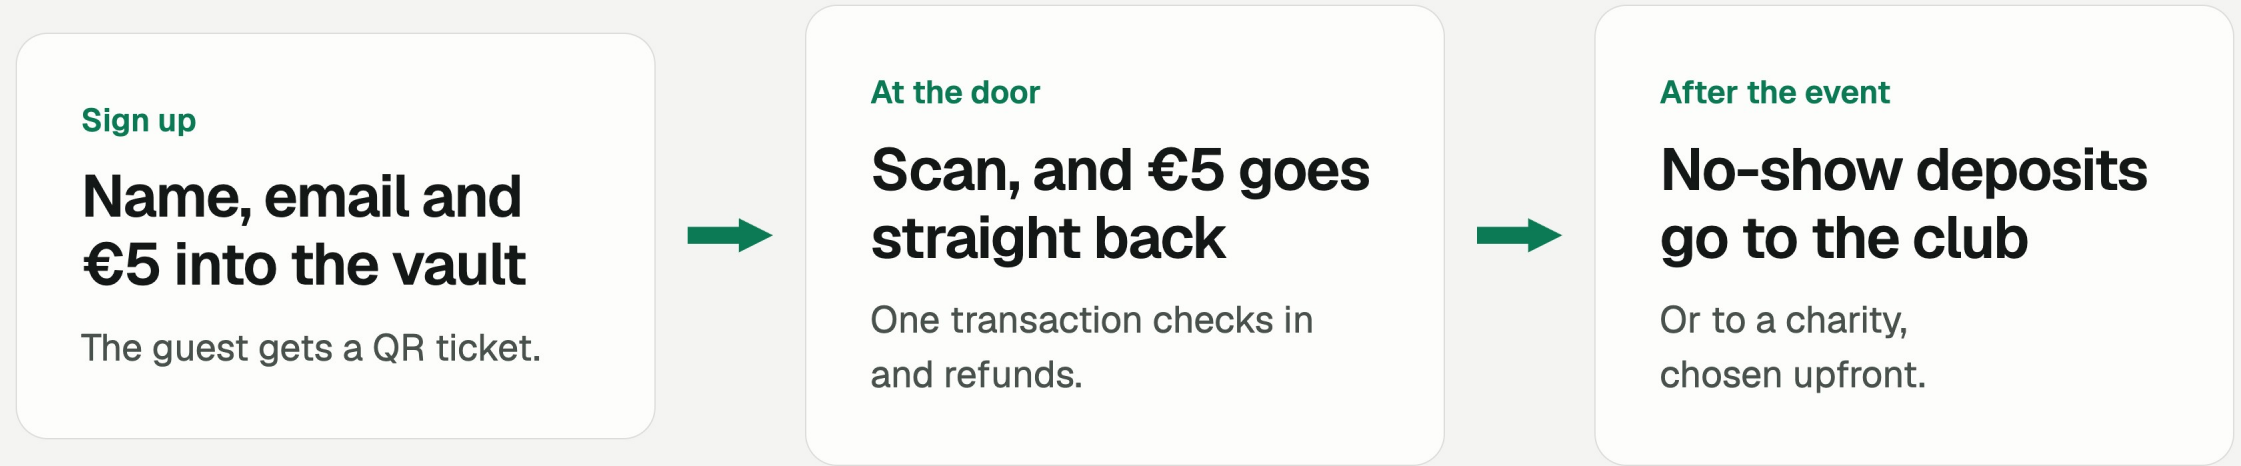

Goethe AI

Founders Club Frankfurt

Germany already solved this for bottles.

Pay a small deposit. Bring it back, get it back. Pfand applies the same rule to event seats.

How it works

Can't make it? Cancel before the deadline and the full deposit comes back.

For guests: sign up, show up, get it back

Save your spot

A €5.00 deposit is locked when you register. You get it back at check-in, or if you cancel in time.

Name

Email

 Encrypted before it's saved. Only the organizer can read your name and email.

Register with €5.00 deposit

Ticket for Lena Hoffmann

Goethe AI Talk: Agents in Practice

Fri, 2 Oct, 18:30

Deposit held €5.00

Show this code at the door. Your deposit comes back the moment it's scanned.

Can't make it? Cancel (3 days left)

Fri, 2 Oct, 18:30

 Deposit
€5.00, refunded at check-in

 Spots
76 of 80 left

 Free cancellation
Until Fri, 2 Oct, 15:30

 If you don't show up, your deposit goes to the organizing club. Show up and you pay nothing. Cancel in time and you pay nothing.

You're in.

€5.00 is back in your wallet. Checked in at 12:10.

1. Name, email and the €5 deposit

2. A personal QR ticket

3. Scanned at the door, €5 back

For organizers: share, scan, done

Your event is live. Share it.

Send this link to your group chats or print the QR code on the poster.
Guests sign up with their name, email and the deposit.

Check in

Guest list with names and emails, readable only by the organizer, exportable as CSV

WHY SOLANA

Refunds are the product. They have to be instant and nearly free.

	Card payment	Pfand on Solana
Refunding €5	Fees eat into a small amount	A fraction of a cent
Speed	Days, triggered by hand	Seconds, right at the door
Who holds the money	The club's bank account	A program vault with fixed rules
Currency	Euro	Euro stablecoin (EURC)

Under the hood

An Anchor program with five instructions, a React web app with wallet support, QR tickets, a camera scanner and encrypted guest lists.

```
create_event · register · cancel_registration  
check_in · settle
```

Rules enforced on-chain

- Only the organizer can check guests in
- Each deposit is refunded once, never twice
- Cancelling works only until the deadline
- Settling works only after the event ended
- The beneficiary is fixed at creation
- Names and emails are stored encrypted

Every rule is covered by end-to-end tests on LiteSVM.

FIRST USERS

Start with our own events, then the campus.

Our events

Goethe AI talks and the Founders Bootcamp at Founders Club Frankfurt run on Pfand.

The campus

Other student initiatives in Frankfurt that share rooms, sponsors and the same problem.

Communities

Meetups and student clubs across Germany, starting with the Superteam network.

Built-in growth loop

Every guest uses Pfand once at the door. Guests who also organize events bring it to their own club.

What comes next

Gasless for guests

A sponsor pays network fees. Guests only need the deposit.

Sign up with email

Embedded wallets, so nobody has to install a wallet app.

Door helpers and waitlist

Volunteers scan too. Cancelled spots go to the next person automatically.

Mainnet with EURC

Real euro deposits, plus attendance reports clubs can show sponsors.

Show up, get it back.
